

FEATURES

"RENEW" FLOOR CLEANER is designed specifically for hard surface, finished floors, thereby giving maintenance personnel a choice when cleaning their floors. Generally speaking, most floor maintenance personnel have been using a multi-purpose cleaner to mop their floors. The majority of these cleaners have an alkaline base, as an alkali formula is by far the most superior all-purpose cleaner. The alkalinity of these cleaners, however, will have a dulling effect on the finish. After 2 or 3 moppings, the floor will have considerably less sheen to it, as the alkali will chemically react with the finish.

"RENEW" FLOOR CLEANER, being designed ONLY for use on finished floors, has a neutral pH balance; consequently, maintenance personnel can have complete confidence that "RENEW" will not chemically react with their floor finish. In fact, "RENEW" will not strip wax at any dilution. It is safe to use on marble floors.

"RENEW" FLOOR CLEANER is a low sudsing cleaner, which makes it ideal both for mopping and for use in scrubbing machines. Excellent cleaning power without any excessive sudsing makes "RENEW" ideal for quick, easy cleanings.

"RENEW" FLOOR CLEANER does not require rinsing. However, maintenance personnel should remove any dirt and grime as well as any excess water. Light buffing after mopping with "RENEW" will enhance the sheen left on the floor.

Made in USA 

Net Contents **5 Gallons**

"RENEW" CONCENTRATED FLOOR CLEANER

**SPECIFICALLY DESIGNED FOR
MAINTAINING AND BEAUTIFYING
ANY FINISHED FLOOR**

For use on hard surface floors only.

- * CUTS THROUGH GREASE and SOIL
- * REDUCES RESOILING
- * REMOVES SOAP BUILD-UP
- * SELF-POLISHING
- * PRODUCES A VISIBLE SHEEN
- * pH BALANCED-SAFE
- * WILL NOT STRIP WAX AT ANY DILUTION
- * REMOVES SOIL BY "SUPER PENETRATION"
- * NO RINSING - REMOVE EXCESS WATER -
BUFF FLOOR FOR HIGHER SHINE
- * SAFE ON MARBLE

An Exclusive Formula of

DIRECTIONS

Mix product into water before use, especially when applying with an auto-scrubber, to avoid settlement and plugging filters.

For general mopping: Dilute one part "RENEW" with 40 parts warm water (approximately 2 to 4 ounces per gallon). Apply with mop or scrubbing machine, allow the solution to remain on the surface a few minutes to loosen dirt and grime, and remove with mop or wet vacuum. Rinsing is not required. However, it is highly recommended that maintenance personnel, when mopping, rinse the mop frequently as soil and grime are picked up. Special formulation will enhance finished floors. After cleaning, buff floor lightly if higher gloss is required.

For heavy mopping: Dilute one part "RENEW" with 12 parts warm water (approximately 8 to 12 ounces per gallon). Apply with mop or scrubbing machine, allow the solution to remain on the surface a few minutes and remove with mop or wet vacuum. At this dilution, maintenance personnel should rinse with clean water.

For scrubbing machine, regular or automatic: Dilute one part "RENEW" with 40 parts warm water and pour into machine.

WARNING: Contains detergent blend and glycol ether. Causes eye and skin irritation. Do not take internally. Store in original container. Wear eye and face protection. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. IF SWALLOWED: Call a Poison Center or doctor/physician if you feel unwell. Rinse mouth. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. IF ON SKIN: Wash with plenty of water. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse. Dispose of in accordance with local, state and national regulations. **KEEP OUT OF REACH OF CHILDREN!**
