

## FEATURES

**MARC Wash 'N' Wax** is a concentrated one-step product that both cleans and waxes. Use on all vehicles such as cars, trucks and buses. It is ideal for institutional, municipal and industrial vehicle maintenance shops, commercial truck and car washes and rental agencies.

The special combination of mild biodegradable detergents, rinse additives and polishing agents in **MARC Wash 'N' Wax** effectively cleans off dirt, grime and road film, and then leaves a spotless, high gloss, water-beading finish. A neutral pH and non-abrasive formula make **MARC Wash 'N' Wax** ideal for clear-coat finishes. Cleaning and waxing in one operation saves both time and labor while keeping vehicles looking their best.

## DIRECTIONS FOR USE

For normal cleaning, use 3 to 6 fluid ounces of **MARC Wash 'N' Wax** per gallon of warm water. Heavily soiled surfaces may require a higher concentration. Hose vehicle off with water first, then apply **MARC Wash 'N' Wax** solution with a soft cloth or wash mitt, and rub gently.

Wash vehicle in an area out of direct sunlight. After washing, rinse with clean, cold water. Wipe finish dry to a high gloss with a clean, soft cloth or chamois. Surface may be buffed to further enhance shine.

**DANGER:** Contains concentrated nonionic and anionic detergents. Causes serious eye damage. Do not contact eyes. May cause skin irritation. Avoid contact with skin and clothing. Wear safety glasses and rubber gloves. May be harmful if swallowed. Do not take internally. Do not inhale mist. Harmful to aquatic life. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a Poison Center or physician. **IF ON SKIN:** Wash off thoroughly with water. **IF SWALLOWED:** Call a physician immediately. **IF INHALED:** Get fresh air. Dispose of in accordance with federal, state and local regulations. **KEEP OUT OF REACH OF CHILDREN!**
