DISSOLVES & ELIMINATES

★ SOAP SCUM ★ BODY OILS ★ WATER STAINS

A MARC product specifically designed for cleaning molded fiberglass bathtubs and shower units, boats or any fiberglass surface. Its unique jelling action makes it the ideal product for cleaning the vertical and hard-to-get-at surfaces found in these areas.

DIRECTIONS FOR USE

Pour on to a damp sponge, apply to surface and allow product to set for two to three minutes so it may penetrate and loosen grime and grease. Then brush and rinse well. ALWAYS RINSE THOROUGHLY AFTER USING. In case of very stubborn or difficult stains, it may be necessary to repeat the above procedure.

NOTE: This product may etch some ceramic tiles, tubs and sinks. If in doubt, test on a small area first. Avoid contact with wood or clothing. Do NOT use on marble, polished aluminum, metallic glazed surfaces, or terrazzo.

WARNING

Contains sulfamic acid and nonylphenol ethoxylate. Causes skin burns and eye damage. Do not contact eyes, skin or clothing. Do not take internally. In case of eye or skin contact, immediately flush thoroughly with plenty of water for 15 minutes. Get medical attention if irritation persists. If swallowed, drink several glasses of water and immediately get medical attention. Do not mix with chlorine bleach or other chemicals.

Buyer assumes responsibility for use, storage and disposal of product and container. We feel this product will perform exactly as represented. However, we have no control over the use or application thereof. We make no warranties, expressed or implied.
