

## FEATURES

**MARC Salt Neutralizer** is a concentrated liquid which neutralizes and breaks apart white salt film on equipment and other surfaces, allowing it to be easily rinsed away. It helps protect against rust and corrosion before they get a chance to start. Regular use of **MARC Salt Neutralizer** extends equipment life. It is easy and economical to use.

Use **MARC Salt Neutralizer** on all types of road and salt application equipment such as dump trucks, road graders, snow plows, etc. **NOTE:** Do not use on floors. Do not use on glass. If contact occurs, wash off immediately with water.

## DIRECTIONS FOR USE

Use **MARC Salt Neutralizer** as required after salt applications. Dilute **MARC Salt Neutralizer** 1:10 to 1:12 with water. Spray on affected area. Let solution set for several minutes. Scrub stubborn buildups with a brush. Hose off with fresh water. Do not allow solution to dry on vehicle or equipment.

**Net Contents: 5 Gallons**
