DIRECTIONS

FOR MOPS:

Spray entire mop until moist. Repeat this step after each laundering. Allow mop to dry at least 6 hours or, if possible, overnight before use. Be sure to hang up mop - do not leave resting on floor. Dirt and soil can be easily removed from treated mops with vigorous shaking. When too soiled for further use, launder mop and retreat as above. For longer storage after treatment, roll up mop and store in a plastic bag.

FOR DUST CLOTHS:

Spray dust cloth lightly, slightly moistening cloth. Hang up and allow to dry for two to three hours. Dust cloth is then ready to work. When too soiled for further use, launder cloth and retreat as above.
