

MARC 48 W II WAVE 3D URINAL SCREENS

The MARC 48 W II Wave 3D Urinal Screens provide the best splash reduction available. They work the same regardless of which side is up. The screens release biologically active bacteria which quickly devour odors for a full 30 days.

Freshens for 30 days

Releases billions of optimized bacteria and more than twice the fragrance as competing urinal screens over 30 days to keep the urinal and restroom smelling fresh.

Installs correctly every time

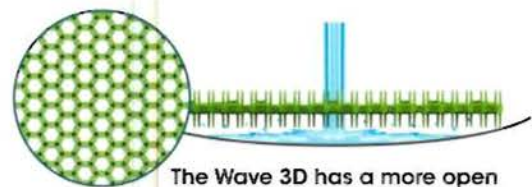

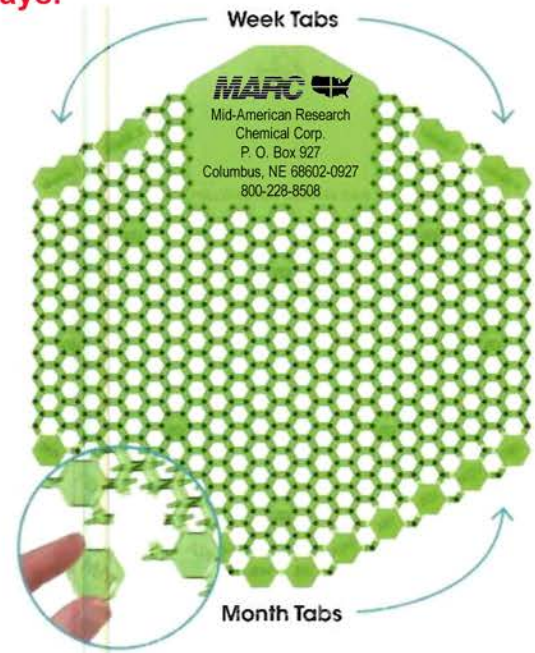

Unique design eliminates installation error and installs both ways without sacrificing splash reducing performance.

Reduces splash and cleaning time

Long protrusions on both sides plus a unique hexagon mesh eliminate urine splash, cutting cleaning time.

Reminds you when to change it

Simply pull off the week & month tabs to set your reminder.

The Wave 3D has a more open design, increased height, and thus does not splash.
