MARC 50 is designed and formulated from the highest quality materials available. The viscous nature of MARC 50 allows it to cling to the surface and gives a continuous cleaning action. MARC 50 has a specially formulated fragrance that leaves the bathroom smelling fresh and clean.

## DANGER

Contains hydrochloric acid and isopropyl alcohol. Do not get in eyes, on skin or on clothing. Do not take internally. Avoid breathing vapors. Use with adequate ventilation. May burn skin and cause permanent eye damage. If eye or skin contact occurs, flush thoroughly with water for 15 minutes and get medical attention. If swallowed, drink several glasses of water if able to swallow and get immediate medical attention. If inhaled, get fresh air. Do not mix with chlorine bleach or other chemicals.

### KEEP OUT OF REACH OF CHILDREN

HMIS/NFPA Ratings: Health 2, Flammability 0, Reactivity 0.

## DIRECTIONS

Wear safety glasses and rubber gloves when using.

**TOILET BOWL** – One of the most difficult areas to clean is under the toilet rim. This is an area where scale forms and clogs the toilet water jets, and is a breeding area for bacteria which causes unpleasant bathroom odors. Most toilet bowl cleaners are not of a viscous nature and consequently are unable to reach under the toilet rim. MARC 50 can be applied to the toilet bowl rim and because of its viscous creamy texture, will run under the rim. With its ability to cling to the sidewalls, it can be left on overnight on difficult toilets. MARC 50 can also be used in cleaning the toilet seat and outside of the toilet. MARC 50 is excellent for cleaning and deodorizing urinal stains which are generally found on the floor around the base of the toilet.

**URINALS** – MARC 50 can be applied in the same manner as described for cleaning toilets. It is also excellent in controlling urinal odors which are usually so noticeable.

**SINKS AND BATHTUBS** – MARC 50 should be diluted approximately 3 parts of water to 1 part MARC 50. Porcelain and chrome fixtures must be thoroughly rinsed after cleaning, and the product should not be left on the surface for more than 3-5 minutes. MARC 50 does an excellent job in cleaning water spots on stainless steel sinks.

**SHOWERS AND TILE** – MARC 50 can be applied directly to shower walls with either a bowl mop, sponge, or cloth. It will remove the scale and soap deposits that are so prevalent on shower walls and floors.

**SWIMMING POOLS** – MARC 50 is one of the most versatile products available for swimming pools. It can be used in cleaning toilets, showers, sinks, walls and floors. MARC 50 does an excellent job in containing the musty odors generally associated with swimming pool dressing rooms. Because of its gentle nature, MARC 50 is safer to use than most harsh bowl cleaners.

**NOTE:** This product may etch some ceramic tiles, tubs and sinks. If in doubt, test on a small area first. Avoid contact with wood or clothing. Do NOT use on marble, polished aluminum, metallic glazed surfaces, terrazzo or colored grout.

Ask your local dealer about other fine MARC products.
