

DIRECTIONS FOR USE

Wear rubber gloves and safety glasses or a face mask before application. Due to its high concentration, **Spectrum** is not recommended for sinks or bathtubs.

SWIMMING POOLS: **Spectrum** will dissolve scale, lime and mineral deposits on sidewalls and floors, chlorinators, screens and metal parts. Spray or brush **Spectrum** directly on the area to be cleaned. Let it soak 5 to 15 minutes and flush with water. Because of the inhibitors in **Spectrum**, it will accomplish the same descaling and cleaning jobs as muriatic acid without harming the metal or dulling the finish.

SHOWERS: **Spectrum** will dissolve scale, lime and mineral deposits on shower room walls. Spray or brush directly on walls and floors. Allow to stand 5-10 minutes and flush thoroughly with water.

CEMENT: Because of **Spectrum's** adherence ability, it is excellent for cleaning cement from forms, cement tools, wheelbarrows, cement mixers and trucks. Spray or brush on. Allow to remain as long as necessary and flush thoroughly with water.

TOILETS AND TOILET TANKS: To dissolve mineral deposits, remove water, brush or spray **Spectrum** on area to be cleaned. Allow it to soak for 10 to 15 minutes, then flush thoroughly with clear water. Tanks with heavy buildup may require more than one application.

HUMIDIFIERS: Will dissolve buildup on rotor wheels, plates, pans and all parts that come in contact with water. Pour sufficient amount of **Spectrum** into pan and soak parts to be cleaned until buildup is dissolved. Rinse thoroughly with clear water before re-assembling humidifier.

DISHWASHERS: Will dissolve scale, lime and mineral deposits on side walls, door, rotary arm, etc. Spray or wipe **Spectrum** on areas to be cleaned. Allow it to soak 5 to 10 minutes, then turn dishwasher on rinse and run through cycle.

NOTE: This product may etch some ceramic tiles, tubs and sinks. If in doubt, test on a small area first. Avoid contact with wood or clothing. Do NOT use on marble, polished aluminum, metallic glazed surfaces, terrazzo or colored grout.

SPECTRUM

SUPER STRENGTH

JELLED DESCALER

WINTERGREEN FRAGRANCE

DISSOLVES

- ★ Rust
- ★ Lime
- ★ Scale
- ★ Calcium
- ★ Hard Water Stains

DESCALES

- ★ Shower Stalls
- ★ Swimming Pools
- ★ Building Exteriors
- ★ Toilet Tanks
- ★ Vertical Surfaces

DANGER: Corrosive

FEATURES

Spectrum Jelled Descaler is a revolutionary product that is designed to be a safer replacement for muriatic acid. **Spectrum's** jelled formulation clings to vertical surfaces allowing it sufficient time to attack lime, scale and calcium deposits. Being a heavy-bodied descaler, **Spectrum** has sufficient strength so that under normal conditions one application is sufficient. Through scientific research, **Spectrum** has been designed as a highly concentrated descaler that will out-perform any descaler on the market.

DANGER: Contains hydrochloric acid, isopropanol and nonylphenol ethoxylate. Corrosive. Causes severe skin burns and eye damage. Harmful if swallowed or in contact with skin. May cause respiratory irritation. Do not breathe mists. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling. Wear protective gloves and eye protection. Do not eat, drink or smoke when using this product. Keep only in original container. Do not mix with chlorine bleach or other chemicals. Use only in a well-ventilated area. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If on skin or hair: Immediately take off all contaminated clothing. Rinse skin and hair with water. Wash contaminated clothing before reuse. If swallowed: Rinse mouth. Immediately call Poison Center or doctor. Do NOT induce vomiting. Store locked up in a dry place in a tightly closed container. Dispose of in accordance with federal, state and local regulations. **KEEP OUT OF REACH OF CHILDREN!**
