

MARC Liquid Ice Block contains a new chemical breakthrough PHOSOLITE 3. Through chemical research it was discovered that Phosolite 3 will prevent ice and snow from bonding to a surface. It will not harm concrete, asphalt, vegetation, spraying equipment, sanitary sewers or storm sewers. **MARC Liquid Ice Block** will not leave a white residue. It is non-corrosive. It is biodegradable, and is completely safe to all surfaces.

WILL REDUCE LABOR COSTS DRASTICALLY IN:

CITY, COUNTY AND STATE STREET DEPARTMENTS

Will prevent snow and ice from bonding to sidewalks, streets, parking lots, crosswalks, driveways, intersections, bridges, culverts, load beds in trucks and anywhere the prevention of ice and snow from bonding to the surface will be an aid to the safety of traffic and pedestrians.

CITY SEWER DEPARTMENTS

Contains no harsh heat-generating chemicals, therefore it can be used by sewer plants and sewer departments to aid in plant operation.

SCHOOLS, COURTHOUSES, OFFICES, INDUSTRY, MOTELS

Will prevent snow and ice from bonding to sidewalks, steps, driveways, parking lots, ramps, loading docks and fire escapes where the prevention of snow and ice from bonding to the surface will be an aid to the safety of students, employees, customers and pedestrians.

HOSPITALS & NURSING HOMES

Will prevent snow and ice from bonding to sidewalks, steps, emergency entrances, driveways, parking lots, ramps, loading docks and fire escapes where the prevention of snow and ice from bonding to the surface will be an aid to the safety of patients, doctors, visitors and employees.

POLICE AND SHERIFF DEPARTMENTS

Will prevent snow and ice from bonding to sidewalks, steps, emergency exits, driveways, ramps, loading docks and parking lots where the prevention of ice and snow from bonding to the surface will be an aid to the safety of traffic, pedestrians, patrolmen and employees.

Liquid Ice Block

**WILL NOT DAMAGE
GRASS OR VEGETATION**

• **FAST • EASY • ECONOMICAL** •

• **Harmless to Concrete** •

• **Non-Corrosive • Leaves No White Residue** •

**Prevents Ice and Snow from
Bonding to a Surface.**

**Free from Phosphates, Acids, Alkalis,
Salts & Calcium Chloride.**

M-97

MID-AMERICAN RESEARCH CHEMICAL CORP.
P. O. BOX 927 · COLUMBUS, NE 68602-0927 · 800-228-8508

AIRPORTS

Will prevent snow and ice from bonding to sidewalks, steps, driveways, ramps, loading docks, hangars, parking lots, airport runways and taxi strips where the prevention of snow and ice from bonding to the surface will be an aid to the safety of customers, employees, pilots, passengers and visitors.

DIRECTIONS

Liberally spray, sprinkle or pour **MARC Liquid Ice Block** on surface to be treated prior to snow fall or ice storm. This material will prevent the bonding action between ice and pavement from forming, even if covered with snow. It will be easy to plow or shovel without encountering a hard crust. This product is effective in preventing the bonding action of ice or snow from forming when sprayed on the surface prior to snow fall or ice storm. **Note:** If rain falls prior to the ice or snowstorm, the surface will have to be retreated.

WARNING: Contains ethylene glycol and isopropanol. Harmful if swallowed. Causes eye irritation. May cause damage to kidneys through prolonged or repeated oral exposure. Do not breathe mist, spray or vapors. Wash hands, forearms and exposed areas thoroughly after handling. Do not eat, drink or smoke when using this product. May aggravate those with pre-existing eye, skin or respiratory conditions. **IF SWALLOWED:** Rinse mouth. Call a doctor or POISON CENTER if you feel unwell. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. Dispose of in accordance with federal, state and local regulations. **KEEP OUT OF REACH OF CHILDREN!** HMIS/NFPA Ratings: Health-1, Flammability-1, Reactivity-0. **MADE IN USA.**
