

- HARMLESS TO CONCRETE & ASPHALT
- GENERATES NO HEAT

DESCRIPTION

MARC Liquid Ice Melter is designed to melt ice and snow by chemical action, and contains no harsh heat-generating ingredients. It will not harm concrete, asphalt, vegetation, spraying equipment or sanitary and storm sewers. It is non-corrosive, safe for surfaces, biodegradable, and will not leave a white residue. **MARC Liquid Ice Melter**, when used as directed, will save time and labor. It will work effectively to -25°F. **MARC Liquid Ice Melter** will not track in and ruin floor finish or carpeting.

WARNING: Contains ethylene glycol and isopropanol. Harmful if swallowed. Causes eye irritation. May cause damage to kidneys through prolonged or repeated oral exposure. Do not breathe mist, spray or vapors. Wash hands, forearms and exposed areas thoroughly after handling. Do not eat, drink or smoke when using this product. May aggravate those with pre-existing eye, skin or respiratory conditions. IF SWALLOWED: Rinse mouth. Call a doctor or POISON CENTER if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. Dispose of in accordance with federal, state and local regulations. KEEP OUT OF REACH OF CHILDREN!
HMIS/NFPA Ratings: Health-1, Flammability-1, Reactivity-0. MADE IN USA.

LIQUID ICE MELTER

- Non-Corrosive
- Fast Chemical Action
- Will Not Track

Melts ice and snow on walks, driveways, intersections, culverts, bridges, steps, ramps, loading docks and other places where ice and snow are present.

An Exclusive Formula of **M-97-LM**

MID-AMERICAN RESEARCH CHEMICAL CORP.
P. O. BOX 927 · COLUMBUS, NE 68602-0927 · 800-228-8508

- EASY TO APPLY
- NO WHITE RESIDUE

DIRECTIONS FOR USE

MARC Liquid Ice Melter can be applied through a pressure sprayer (Hudson-type), sprinkled or poured on area to be treated. This will dissolve up to ¼" of ice. On heavier or glazed ice, it may be necessary to score ice in several places to prevent run-off and allow better penetration. This will help break the bond and allow for easier removal. Extreme conditions may require more than one application.

MARC Liquid Ice Melter contains Phosolite 3, so it can also be used as an ice preventer. Spraying prior to a storm will prevent snow and ice from bonding to sidewalks, steps, driveways, ramps, loading docks or anywhere the removal of snow and ice is a problem.

MARC Liquid Ice Melter will last for several hours, depending upon the amount of precipitation. Continuous downfall of snow may require repeated applications.

MARC Liquid Ice Melter is an excellent winter product to have on hand and use as an aid in the thawing out of padlocks, car locks, water hydrants or any area where freezing water or snow creates problems.
