

## TECHNICAL DATA SHEET

**Product Name: PEN-A-LUBE PENETRATING LUBRICANT**

**Product Number: MARC 100**

**MARC Pen-A-Lube** is a high-tech formulation of specialized oils fortified with micron-sized PTFE (polytetrafluoroethylene like Teflon®) to provide excellent and long-lasting lubrication and penetration. This unique formula penetrates and defends against corrosion, dissolves grease and grime, and continues to work in extreme temperatures. It also displaces water and moisture from electrical equipment. **MARC Pen-A-Lube** saves production, maintenance and repair time.

**MARC Pen-A-Lube** is exceptional for use on automobiles, trucks, busses, airplanes, boats, motorcycles and other vehicles, industrial machines, motors, shop equipment, refrigeration equipment, nuts and bolts, hinges, locks, roller bearings, conveyors, pulleys, wire cable, electric motors, ignition systems, gears, rusted parts and other sliding moving or turning parts in automotive repair shops, airport terminals, hotels/motels, schools, motorcycle dealerships, machine shops, machinery manufacturers, trucking companies, metal fabricating shops, tool and die shops, oil rigs and much more. It contains no ozone depleters, and is non-flammable.

### Product Specifications

Net Wt. per 20 oz.-size Can:	19 ounces
Classification:	Aerosol Penetrating Lubricant
General Appearance:	Clear Liquid
Color:	Colorless to slight tint
Odor:	Solvent
VOC Content:	0%
Specific Gravity:	1.2-1.3
Weight per Gallon:	10.4 Pounds per Gallon
Flammability:	Not a flammable aerosol
Solubility in Water:	None
Performance:	Penetrates, lubricates, displaces moisture, helps prevent corrosion

R0121
