

## TECHNICAL DATA SHEET

**Product Name: DESTROYER ROACH & ANT INSECTICIDE**

**Product Number: MARC 112-C**

**DESCRIPTION:** Destroyer Roach & Ant Insecticide is an EPA-registered solvent-based aerosol formulated to have the fastest insect knockdown possible. It contains the ingredient ETOC to kill a broad spectrum of insects instantly on contact, with total control of the crawling insects listed on the label. It also contains the synergist MGK 264, which enhances insecticidal activity. The residual provided by the synthetic pyrethroid ingredient Esfenvalerate is up to seven weeks. MARC Destroyer has an 18,000-volt dielectric strength and a pleasant cherry fragrance. It may be used indoors or outdoors.

**APPLICATIONS:** Controls ants, roaches, beetles, silverfish, mosquitos, flies, crickets, spiders (including black widow spiders), waterbugs, scorpions, sowbugs, fleas and ticks in and around residential areas, hotels/motels, warehouses, theaters, schools, hospitals, nursing homes, office buildings, industrial plants, restaurants, stores, kennels, dumpsters, garbage cans, etc.

### **FEATURES & BENEFITS:**

- Fast knockdown
- Kills insects instantly on contact
- Broad spectrum - kills a wide range of insects
- Contains a synergist to enhance insecticidal activity
- Seven-week residual
- High dielectric strength
- Indoor and outdoor use
- Pleasant cherry fragrance

### **SPECIFICATIONS:**

FORM: Solvent-Based Aerosol Spray  
FRAGRANCE: Cherry  
COLOR: Clear  
DETERGENCY: None  
TOXICITY: 400 ppm OSHA TLV  
WETTING ABILITY: Saturates  
STORAGE STABILITY: Over 1 Year  
COLD STABILITY: 0°F  
PHOSPHATES: None  
CAN SIZE: 20 Oz., 15 oz. Net Weight

FLASH POINT: Over 185°F TCC  
FLAME EXTENSION: Under 18"  
SOLUBILITY IN WATER: 0%  
SPECIFIC GRAVITY: 0.81  
% VOLATILE BY VOLUME: 100%  
pH: N/A  
PROPELLENT: Carbon Dioxide  
EVAPORATION RATE: Faster than Water  
BIODEGRADABILITY: No  
DIELECTRIC STRENGTH: 18,000 Volts

R0319
