

TECHNICAL DATA SHEET

Product Name: CHERRY BLOSSOM DRY AIR FRESHENER

Product Number: MARC 120

Description: MARC 120 Cherry Blossom Dry Spray Air Freshener represents another evolution in room deodorizers. This breakthrough formulation contains all of the performance one might expect from a dry-type air freshener-but with a twist. Excellent bloom and suspension time, ultra-fine particles for a floating mist, no fall out, no staining and no residues for use in textile applications are just some of the attributes. What is truly remarkable about the product is that it achieves the incredibly dry spray without using ozone depleters. In fact, this product contains less than 30% total VOC content! A remarkable spray is not the only exciting thing about this new formulation. Included is a premium fragrance made from nature's best botanical fragrance oils to ensure superior olfactory notes and tones. But a fantastic fragrance is not the only premium feature you will find. Also included is not one, but two odor counteractants for maximum deodorizing power. The dual system quickly neutralizes malodors with industrial and institutional strength even on smoke, decay, urine, feces, solvent, vomit, cooking, animal and more. Also featured is a new light-touch actuator for effortless pinpoint spray control. When used as directed, this advanced formula will effectively freshen without staining or leaving a residue. Although versatile enough to use virtually anywhere, suggested uses include freshening rooms, fabric, drapes, bedspreads, carpet, auto interiors and air conditioners, closets, lockers, chests, shoes, luggage, showers, and garbage receptacles in hotel rooms, restaurants, hospitals, apartments, schools, nurseries, fitness centers, animal clinics and nursing homes.

Product Specifications:

Wt./20oz. can:	14.25 Ounces
Classification:	Aerosol Dry-Type Air Deodorizer
General Appearance:	Clear, Dry
Color:	Colorless
Odor:	Cherry Blossom
Vapor Pressure At 70° F:	60 psig
Spray Pattern:	Dry Mist
