USE ON:

Floors, Furniture, Door and Window Frames and Sills, Venetian Blinds, Woodwork, Table Tops, Wall Panels.

FEATURES:

MARC Water-Based Dust Mop Treatment ensures maximum dust absorption on dust mops and cloths. Sprays on as a penetrating, quick-breaking foam that leaves a magnetic dust attractant on cloths, mops and brooms for immediate use – no waiting.

MARC Water-Based Dust Mop Treatment converts dust into heavy lint that is trapped from floating in the air, and is easily picked up. Dusted area is left with a fresh citrus fragrance. Self-indicating foam shows when mop is saturated and will no longer pick up dust, lint or dirt.

Treated mops or cloths can be shaken out or washed in a sink or washing machine.

DIRECTIONS FOR USE:

Shake Well Before Using! Unique 360° valve allows spraying in upright or inverted position. Spray foam in a sweeping motion across cloth, mop or broom. Allow foam to penetrate into fibers. Reapply as needed to attract dust, lint and dirt. Shake out or wash when considerable dust or lint build-up occurs, or if foam will no longer soak in after application.

WATER-BASED DUST MOP TREATMENT

Danger: Extremely flammable aerosol. May cause an allergic skin reaction. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing gas. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves. Protect from sunlight. Do not expose to temperatures exceeding 49°C/120°F. Dispose of contents/container in accordance with local/regional/national/international regulations.

First Aid: **IF ON SKIN:** Take off immediately all contaminated clothing. Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse. **IF IN EYES:** Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists. **IF INHALED:** Move to fresh air. Call a physician if symptoms develop or persist. **IF SWALLOWED:** Rinse mouth. Get medical attention if symptoms occur.

CONTAINS (CAS No.): Water (7732-18-5), White Mineral Oil (8042-47-5), d-Limonene (5989-27-5), Polyethylene Glycol Nonylphenol Ether (9016-45-9), and Liquefied Petroleum Gas (68476-86-8).
