

TECHNICAL DATA SHEET

Product Name: CITRUS GLOSS BOSS

Product Number: MARC 144

Description

MARC Citrus Gloss Boss is a time- and labor-saving aerosol dusting, cleaning and shining aid. The quick-breaking foam contains no silicone or wax, thereby eliminating surface build-up and dulling. Just spray on, wipe clean, then buff. Removes dust and dirt while restoring life and brilliance to almost any surface. Leaves behind a lingering fresh citrus aroma.

For Use By

TECHNICAL DATA SHEET-Continued

Product Name: CITRUS GLOSS BOSS

Product Number: MARC 144

In today's high-tech world, actual natural wood surfaces are almost extinct. Almost everything today is manufactured, laminated or otherwise covered with some form of simulated material such as Formica, vinyl, cultured marble, fiberglass, synthetic laminate, baked enamel, porcelain, etc. In most cases, these surfaces do not respond favorably when cleaned and polished with traditional wax and silicone-based products. MARC Citrus Gloss Boss has filled a void in the cleaning and polishing product market by providing a wax and silicone free, one step cleaner and polish designed especially for today's high tech, mostly non-porous surfaces.

The difference between a wax-based furniture polish and MARC Citrus Gloss Boss can be demonstrated easily. Simply treat one of the surfaces mentioned above. Apply to a large area treating half with furniture polish and half with MARC Citrus Gloss Boss. You will note several things:

1. MARC Citrus Gloss Boss is much easier to apply and requires less effort and time to wipe out.
2. MARC Citrus Gloss Boss provides what is often referred to as "A Wet Look Shine" while the furniture polish, in many cases, tends to dull synthetic surfaces.
3. MARC Citrus Gloss Boss does not leave a heavy wax or silicone film. With repeat applications, this film, left behind by typical furniture polishes, can easily build up, dull the surface and attract dust and lint.
4. MARC Citrus Gloss Boss provides a fresh fragrance, which blooms throughout a large area. By contrast, lemon furniture polishes often only provide a brief, localized, lemon scent during application.

MARC Citrus Gloss Boss is a highly versatile product, useful on hundreds of surfaces.
