

MULBERRY

ROOM DEODORIZER FEATURES

This metered room deodorizer is the next generation of air care products formulated without CFC's, HCFC's or any other ozone depleters. Contains less than 30% total VOC content! The unique formulation contains no actual or suspected carcinogens and has low VOC's to meet the CARB guidelines for this product class. In addition, MULBERRY ROOM DEODORIZER introduces the latest in odor counteractants. This product contains a revolutionary additive that does more than just cover or numb human odor sensing faculties. It is a unique combination of ingredients assembled to alter and destroy such odors as smoke, decay, urine, feces, solvent, vomit, cooking, animal, and more.

Also featured is a new non-proprietary actuator for use in most available time dispense machines. The metered valve delivers precise spray volumes in an ultra fine mist to effectively freshen rooms up to 6,000 cubic feet. Although versatile enough to use virtually anywhere, suggested uses include freshening bath and washrooms, showers, and garbage receptacles in hotel rooms, restaurants, hospitals, apartments, schools, nurseries, fitness centers, commercial and institutional buildings, animal clinics, nursing homes and more.

DIRECTIONS:

Open the door of the cabinet and remove used can if the machine has been previously used. With the valve opening pointed towards you, place the new can in the cabinet and snap in place. Step to one side, then turn the control switch to "ON" position and push the switch to test operation. The machine should operate one full cycle and dispense one spray. Close the cabinet door. This can contains 3400 controlled sprays for use in closed areas that will last for 30 days when used on a 24 hour basis or 60 days if used 12 hours per day when set to dispense every 15 minutes.

Federal Regulations prohibit CFC propellants in aerosols.

Made in U.S.A.

STEEL

R08-17

DANGER: Extremely Flammable Aerosol. Contains gas under pressure; may explode if heated. Causes skin and serious eye irritation. May cause respiratory irritation, drowsiness or dizziness. May cause an allergic skin reaction.

Keep away from heat, sparks, open flames, and hot surfaces. —No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Store in a well-ventilated place. Wash hands thoroughly after handling. Wear protective gloves and eye protection. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. If on skin, wash with plenty of water. If skin irritation occurs, get medical advice or attention. Take off contaminated clothing and wash it before reuse. Contaminated work clothing must not be allowed out of the workplace. Avoid breathing fumes, mist, vapor and spray. Use only outdoors or in a well-ventilated area. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center or doctor if you feel unwell. Dispose of contents and container in accordance with local, state and federal regulations.

HMS/NFPA RATINGS: Health 1; Flammability 3; Reactivity 0, Personal B.

This container is made with at least 25% recycled steel and may be recycled in the few but growing number of communities where steel aerosol can recycling is available. Check for aerosol can recycling in your area. Use can in accordance with label directions.

CONTAINS (CAS#): Acetone (67-64-1), Propane/n-Butane (68476-86-8), Fragrance (Proprietary), Odor Neutralizer (Proprietary).
