

TECHNICAL DATA SHEET

Product Name: TROPICAL PINEAPPLE – METERED AEROSOL

Product Number: MARC 198

Description: M-198 Tropical Pineapple metered aerosol has excellent bloom and suspension time, ultra-fine particles, is fast drying and long-lasting and has no fall out, no staining and no residue. These are just some of the product's attributes. The product achieves an incredibly dry spray without using ozone depleters. The industrial and institutional strength of M-198 Tropical Pineapple metered aerosol quickly neutralizes malodors such as those from smoke, decay, urine, feces, solvents, vomit, cooking, garlic, onions, fish, ammonia, animals and more. The can features a universal, non-proprietary actuator for use in most available time-dispense machines. The metered valve delivers precise spray volumes in an ultra-fine mist to effectively freshen rooms up to 6,000 cubic feet. Although versatile enough to use virtually anywhere, suggested uses include freshening restrooms, bathrooms, washrooms, showers and garbage receptacle areas in hotels, motels, restaurants, kitchens, hospitals, apartments, schools, nurseries, fitness centers, commercial and institutional buildings, animal clinics, nursing homes and more.

Product Specifications:

Net Weight per Can:	7 ounces
Specific Gravity of Liquid:	0.800
Pounds per Gallon:	6.68
Sprays per Can:	3,900
Cubic Feet Covered:	6,000
How Long Can Lasts:	At 15-Minute Spray Intervals – 30 Days @ 24 Hours per Day, 60 Days @ 12 Hours per Day
General Appearance:	Clear Liquid Spray
Color:	Colorless
Odor:	Pineapple
pH:	N/A
VOC Complaint:	Yes
Contains Odor Counteractant:	Yes
Spray Pattern:	Very Fine Mist, Short Burst
