

Technical Data Sheet

Product Number: **MARC 231**

Product Name: **INSECT REPELLENT TOWELETTES**

DESCRIPTION

MARC 231 Insect Repellent Towelettes is a water-based non-VOC product. It is formulated to repel biting insects for up to 4 hours. Repels bloodsucking insect pests such as mosquitoes, black flies, fleas, ticks, chiggers and sand flies. Convenient, easy-to-use pop-up premoistened towelettes allow quick and thorough application to skin, hair and clothing for maximum protection. **MARC 231 Insect Repellent Towelettes** contains DEET, the most effective biting-pest repellent available. The container fits easily into glove compartments, construction belts, briefcases, golf bags, backpacks, purses, etc.

APPLICATIONS

For use on skin, hair, and clothing to repel biting, bloodsucking insects. Areas of use include construction sites, waste water plants, lagoons, parks, golf courses, sports arenas, marinas, oil rigs, farms, homes, offices, etc. – for anyone who works or plays out-of-doors.

FEATURES & BENEFITS

- Can be applied to clothing, hair and skin
- Helps prevent spread of diseases carried by biting insects
- Convenient size goes anywhere
- Contains 25% DEET
