Terrazzo

MARC Sealer is specifically designed as a sealer undercoat for floor finishes.

MARC Sealer contains a detergent resistant zinc crosslinked polymer that dries to an extreme hardness.

MARC Sealer dries to a clear transparent film that will not discolor the floor.

MARC Sealer is a virtually trouble-free sealer that is designed to be used on many types of floors.

MARC Sealer contains defoamer and leveling agent to eliminate the formation of bubbles, streaks, ridges and feathering. It allows easy application without pitting.

Floors sealed with **MARC Sealer** require less coats of floor finish.

STRIPPING

MARC Sealer can substantially be removed with a MARC wax stripper such as MARC 39+ Super Strip or MARC 272 Once Over.

HMIS/NFPA Ratings: Health-0, Flammability-0, Reactivity-0.

Detergent-Resistant
Self-Leveling
Seals Pores
Non-Streaking
Non-Yellowing**

DIRECTIONS

For best results, start with a thoroughly cleaned, well-rinsed dry floor. Apply **MARC Sealer** with a clean mop or lamb's wool applicator in light, even uniform strokes. The defoamer and leveling agents contained in **MARC Sealer** eliminate the formation of bubbles, streaks, ridges and feathering, allowing easy application without pitting.

Applying floor finish is no problem. Finish may be applied within 15 minutes after the sealer has dried, thereby eliminating down time.

WARNING: Contains glycol ether. Causes serious eye irritation. Wash face, hands and any exposed skin thoroughly after handling. Wear protective gloves and eye protection. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. If on skin: Wash off thoroughly with water. Do not take internally. Use with adequate ventilation. Keep container closed when not in use. **KEEP OUT OF REACH OF CHILDREN! KEEP FROM FREEZING.**
