- ★ SCUFF-RESISTANT ★ SLIP-RETARDANT ★

FEATURES

MARC Spray Buff Plus is a combination of integrated, balanced cleaners, emulsifiers and polymers that allow high speed buffers to create a beautiful floor surface with immediate response.

MARC Spray Buff Plus may be used on any waxed or finished surface. It is safe to use on vinyl, sealed vinyl asbestos, rubber and asphalt tile, composition floors, sealed woods, terrazzo, marble, ceramic tile, linoleum and concrete.

MARC Spray Buff Plus is fast-acting, and will allow maintenance personnel to restore their professional-looking shine with a minimum of effort without going through the complete job of stripping and reapplying floor finishes. It is specifically designed for heavy-use areas such as hallways, entryways, lobbies, classrooms, cafeterias, restrooms, etc.

DIRECTIONS

For best results, the floor should be cleaned before applying **MARC Spray Buff Plus**. If light soil is present, cleaning the floor with a treated mop is sufficient. If heavy soil is present, damp mop with a solution of MARC 239 "RENEW" or use an auto-scrub machine. **MARC Spray Buff Plus** is generally applied using a trigger sprayer, spraying a fine mist ahead of the buffing machine. It is also very effective when used in the pressure systems now available. Use the following "Hawg Hair" pads according to your maintenance program: MARC 801 Natural for infrequent buffing, MARC 813 Gloss Boss for occasional buffing 3 to 4 times per week or MARC 814 Lite for daily buffing.

WARNING: Contains polyethylene glycol mono (p-nonylphenyl) ether, glycol ethers and nonylphenoethoxylate. Causes serious eye irritation. Wash face, hands and any exposed skin thoroughly after handling. Wear protective gloves and eye protection. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. If on skin: Wash off thoroughly with water. Do not take internally. Use with adequate ventilation. Keep container closed when not in use. **KEEP OUT OF REACH OF CHILDREN!**
