

TECHNICAL DATA SHEET

Product Name: NUKE ULTRA HIGH STRENGTH LIFT STATION DEGREASER

Product Number: MARC 266

MARC Nuke contains 100% active ingredients with a very high orange terpene content to keep lift station surfaces free of grease. As wastewater levels rise and fall, heavy grease deposits are deposited on lift station walls. **MARC Nuke** coats the walls and surfaces of the lift station to remove heavy grease accumulations quickly and safely. The special non-emulsifying formula floats on the surface of the water, so it continues to remove deposits as the water level changes. **MARC Nuke** also contains a soybean oil derivative which does not evaporate as fast as other solvents, so it remains on the surface of wastewater longer to penetrate fats, grease and dirt and strip them away from surfaces. **Nuke** will not disrupt the natural biological digestion of bacteria in the lift station.

Use in Lift Stations: Keeps walls, pumps and hoses clean and functioning properly.

Effective Against:

- Floating grease balls • Heavy oil, fat and grease accumulations • Annoying odors •

Features and Benefits:

- Floats on the surface so it will rise and fall with the level of the wastewater
- Quickly dissolves heavy grease and fat accumulations in a lift station
- Creates an odor absorbing barrier to control odors and leaves a pleasant citrus scent
- Color indicator lets you know when you need to add more
- 100% natural biodegradable formula will not interfere in lift station bacteria

Properties--

Appearance: Orange liquid
Fragrance: Citrus
Specific gravity: 0.85
Weight Per Gallon: 7.1 pounds
Flash Point: 115°F
Solubility in Water: Insoluble
Stability: Excellent

R1122
