

FEATURES

MARC Car and Truck Wash is specifically designed for use on automotive finishes. Its pH-balanced formula will not dull the finish, as can happen with alkaline products.

Because **MARC Car and Truck Wash** is pH-balanced, it will not strip off protective coatings, nor will it harm "clear coat" finishes.

MARC Car and Truck Wash is a low sudsing cleaner with excellent cleaning power and easy rinsing.

DIRECTIONS

Use **MARC Car and Truck Wash** at the rate of 2 ounces per gallon of warm water. Apply with sponge, cloth or sprayer. Scrub heavily soiled areas thoroughly. Rinse with clear water. For heavy duty applications, use a stronger solution.

NOTE: Always wash from bottom up to avoid streaking. Wash vehicle in the shade, not in the hot sun.

CAR AND TRUCK WASH

Specifically Designed for Washing Vehicles

- pH Balanced - Safe on Finishes
- Cuts Through Dirt
- Removes Road Film
- Will Not Remove Protective Finishes
- Restores Luster

An Exclusive Formula of **M-309**
