

TECHNICAL DATA SHEET

Product Name: MARC WASH 'N' WAX

Product Number: MARC 318

FUNCTION:

Concentrated detergent/polish that cleans and waxes in one step.

FORMULATION:

Mild synthetic detergents, rinse additives, and high gloss polishing agents.
Biodegradable.

SPECIFICATIONS:

Appearance.....	Clear, colorless, viscous liquid
Specific gravity.....	1.00
Weight Per Gallon.....	8.3 pounds
PH.....	Neutral
Flash Point.....	None
Solubility in water.....	Complete

SALES AIDS:

Ideal for use on all cars, trucks, busses, and other vehicles. It combines washing and waxing into a single operation to reduce cost, labor, and time. It cleans dirt, grime and road film thoroughly, then leaves a durable polish coating to provide a high gloss and water beading to the clean vehicle. Just rinse and dry.

USAGE:

Mix thoroughly 3 to 6 ounces per gallon of warm water. Hose off vehicle with clear water before washing. Apply MARC Wash 'N' Wax solution with a soft cloth or wash mitt, rub gently as solution is applied, covering all parts of vehicle. Rinse thoroughly with clear, cold water to set the wax and produce a high gloss. Use a chamois or soft clothe to dry off water remaining on surface. Surface may be buffed to further enhance the shine.

FORMULATED FOR:

Municipal, institutional, and industrial vehicle maintenance shops, commercial car and truck washes, rental agencies.
