

# TECHNICAL DATA SHEET

**Product Name: High Speed Buff Hawg Hair Pad**

**Product Number: MARC 814**

**Description:** The **MARC 814 High Speed Buff Hawg Hair Pad** is constructed of blended polyester and low amount of natural Hawg Hair fibers in a textured nonwoven fabrication.

**Properties:**

<i>Property</i>	<i>Value</i>
Thickness	1 inch 26 mm
Weight	29 osy (ounces per square yard) 983 gsm (grams per square meter)
Fiber Type	Recycled Polyester and Natural Hawg Hair
Binder System	Cross-linkable Water-Based
Binder Application	Spray/Dip
Abrasive Application	N/A
Abrasive	N/A
Color	White/Black Blend
Pack	5 per case

**Use:** This pad contains a low amount of Hawg Hair so it is less aggressive than pads with higher amounts. It is used to burnish/polish floor finish to a high gloss, and is recommended for use on medium to hard finishes. It is ideal for use on floor machines with speeds up to 3,000 rpm. This is our least aggressive Hawg Hair pad.

**Construction:** The **MARC 814 High Speed Buff Hawg Hair Pad** is made of 100% recycled polyester and natural Hawg Hair fibers with water based resins. This pad has been designed for use on both sides. Polyester fiber used in our pads comes from 100% post-consumer and industrial recycled waste product. It is formulated to biodegrade in a fraction of the time that it takes conventional floor pads once discarded into an active landfill. Water-based latex resins are used in the manufacturing process. No phenol-formaldehyde resins are used in the binding process. Shipping cartons contain at least 45% recycled material.

**Directions for Use:** Dust mop floors prior to burnishing. Use pad until finish has a high gloss. Dust mop again to remove dust from burnishing.
