

TECHNICAL DATA SHEET

Product Name: Red Buffing Pad

Product Number: MARC 819

Description: The **MARC 819 Red Buffing Pad** is constructed of polyester fibers in a semi-open textured, nonwoven pattern bonded with a durable adhesive.

Properties:

<i>Property</i>	<i>Value</i>
Thickness	1 inch 26 mm
Weight	30 osy (ounces per square yard) 1,017 gsm (grams per square meter)
Fiber Type	Recycled Polyester
Binder System	Cross-linkable Water-Based
Binder Application	Spray
Abrasive Application	N/A
Abrasive	N/A
Color	Red
Pack	5 per case

Use: This pad is designed for light duty cleaning and buffing. It will remove light scuff marks and dirt while producing a high gloss shine. For use with standard electric floor machines, orbital scrubbers and automatic scrubbers, it is ideal for use on machines with speeds up to 800 rpm.

Construction: The **MARC 819 Red Buffing Pad** is made of 100% recycled polyester and natural fibers with water based resins. This pad has been designed for use on both sides. Polyester fiber used in our pads comes from 100% post-consumer and industrial recycled waste product. It is formulated to biodegrade in a fraction of the time that it takes conventional floor pads once discarded into an active landfill. Water-based latex resins are used in the manufacturing process. No phenol-formaldehyde resins are used in the binding process. Shipping cartons contain at least 45% recycled material.

Directions for Use: Dust mop or sweep floors prior to cleaning or buffing. Damp mopping may be necessary if floors are heavily soiled. A spray cleaning solution may be use. Buff until glossy.
