

TECHNICAL DATA SHEET

**Product Name: WAFFLE MICROFIBER
CLEANING CLOTHS**

Product No: MARC 840

Description and Use: These are a 400 gram per square meter (gsm) 80/20 blend closed loop cloths especially designed for cleaning applications. The waffle type weave allows for some abrasion in the cleaning process, for easy use and effective non-streaking results. **MARC 849 Microfiber Waffle Cleaning Cloths** may be used on a variety of surfaces such as glass, counter tops, porcelain, chrome and wood, and for restroom cleaning and general purpose cleaning. These cloths consist of threads split into thousands of "microfibers." These hook-shaped fibers give the cloths their enormous absorption capacity and cleaning performance, allowing them to attract and retain dust and soils better than conventional fabrics without chemical treatment and without harming the surface. When dry, the fibers attract dust and dirt. When wet, capillary action takes over. These cloths work best dry, or with just clean water. No fiber particles are left behind, and dirt is picked up, not just moved around. **MARC Microfiber Waffle Cleaning Cloths** outperform and outlast cotton cloth towels. Change cloth when saturated with dirt. These durable cloths are machine washable and reusable, thereby reducing waste.

Benefits:

- Highly Efficient – removes four times the soil of cotton
- Super Absorbent – 200,000 fibers per square inch hold 7 times their weight in water
- Versatile – use wet or dry on porous and non-porous surfaces
- Lint-Free & Non-Abrasive
- Launderable & Durable – withstands hundreds of launderings
- Lightweight
- Economical – uses no chemicals
- Reduced Drying Times – dries in $\frac{1}{3}$ the time of ordinary cloths
- Hypoallergenic – won't trigger allergic reactions
- Non-Electrostatic – safe to use around sensitive equipment

Used By All Industries, Including: Janitorial, sanitation, housekeeping, daycare centers, automotive, hospitals, nursing homes.

Care Instructions: Wash microfiber cloths separately in warm water with regular detergent. Do not use bleach or fabric softener. Air dry or tumble dry at low heat (under 140°F). Do not over-dry.

Color: Blue

Size: 16 inches x 16 inches

Fiber Composition: Engineered blend of 80% polyester and 20% polyamide

Weight-Each: Approximately 67 grams (2.4 ounces)

R10-17
